

Move Radio Update

Move Radio: Music In Motion

**Now Free On Your iPhone/iPod Touch - Music
Programming by DJs**

We are pleased to introduce you to the first and only online and mobile music portal powered exclusively by DJs. Welcome to Move Radio, a new mobile music destination that allows DJs from all over the world to upload their own mixes and host their own shows, making the hottest international sounds available instantly online and via downloadable mobile applications. Move Radio is dedicated to supporting DJs and building a community of music lovers who want the best mixes and beats on the go. While other outlets are failing or cluttered with talk, we're working to create a platform for the future.

This isn't some pie-in-the-sky venture, either. The founders of Move Radio are veterans and experts in the mobile, online and new media industries coming from such lauded companies as MySpace and Yahoo!. There are an estimated one billion music-capable mobile phones and wi-fi portable music players globally, and we intend to make our DJ's music programming available on as many of those devices as possible.

The music on Move Radio ranges from house to hip hop, merengue to reggae. Over 100 DJs are already making their mixes available to Move Radio listeners, including celebrity DJs and producers such as the

legendary producer/remixer and Dance Music Hall Of Fame inductee Jellybean Benitez, the International Club King DJ Camilo, world renowned trance trio Above&Beyond, and Boy Wonder, founder of "Chosen Few," reggaeton's most recognized brand.

EXCITING NEWS: Move Radio is now streaming on the iPhone and iPod Touch. Move Radio on the iPhone is fully integrated with Move Radio on the Web. Just download our free app from iTunes and immediately get 10 channels of hot mixes and exclusive tracks by our DJs. Be on the lookout for our Premium application coming soon with 30 channels, DJ profiles, exclusive event listings, and more.

CONTACT US: DJs, get your mixshow onto Move Radio by emailing us at dj@move-radio.com. We're also looking for exciting new promotional partnership opportunities—email promo@move-radio.com for more information.
